1 Prior to first use

Dear user,

Thank you for purchasing our product.
To ensure you a quick and convenient use of your new Yarvik GoTab, please read these instructions carefully prior to use.

We hope you will absolutely enjoy your Yarvik GoTab for the longest time possible!

Please note:

• Your Yarvik GoTab is a high precision electronic product, do not try to disassemble the GoTab, as this will void your warranty and may result in malfunctioning of the device;

• Avoid strong beating of or to the product;

• Avoid using the GoTab in a high or low temperature environment, or in any environment where the device can get in contact with moisture, dust or magnetic fields;

• Do not expose the GoTab to strong sunlight for an extended period of time;

• Don’t operate the touch screen of the GoTab with sharp objects, as this may result in scratching the screen surface;

• Using connected headphones on the GoTab for too long and/or setting the audio volume up too high when using headphones may cause serious hearing damage;

• Do not cross the road, drive a motor vehicle or bicycle while using the GoTab with headphones to avoid traffic accidents;

• Only use permitted batteries, chargers and accessories with your Yarvik GoTab. The use of any other products with the GoTab can be dangerous and may violate the warranty regulations;

• Only use a slightly wet cotton cloth to clean the GoTab, and only use water to wetten the cotton cloth. The GoTab should not be cleaned with any sort of (glass) cleaning aid.

You may go ahead and use your Yarvik GoTab right out of the box, without charging the battery first.
It is best for the battery to first run on the charge left in it, and to be fully recharged once it’s completely drained for the first time.
If the GoTab isn’t switching on right out of the box, the battery is already completely drained and you should ofcourse recharge it first.

---

2 GoTab Startup

When you first power on your Yarvik GoTab, you will be presented the startup sequence.
The very first startup may take a while, approximately 2-3 minutes.
After the startup sequence the GoTab has completed starting up and you will be presented the Android Lock Screen.

Android Lock Screen

Slide the lock bar (A) to the right to unlock the GoTab. You will then be taken to the Android Home Screen.

---

3 Android Home Screen

Android Home Screen

On the bottom of the GoTab's screen you can always find the status bar.
The status bar contains both system information and function buttons.

1 - App and widget menu
2 - Widget (analog clock)
3 - App Shortcuts
4 - Back button - brings you back to the previous screen, or previous website when using the Browser
5 - Home - brings you back to the Android Home Screen
6 - Multitask button
7 - System Time
8 - Wi-Fi Signal Indicator
9 - Battery Level Indicator

The home screen consists of multiple pages which can be accessed by swiping the home screen left/right.

To see what apps are running in the background, you can access the multitasking view by pressing the multitask button (6).

Click on a running app in the multitask view to quickly switch to it. You can close running apps by long pressing it and clicking "Remove from list".

3.1 Adding widgets and shortcuts to your Home Screen

To add a widget, press the app and widget button in the top right corner of your Home Screen:

In the following screen, you can find all the installed apps and widgets, both seperately viewable by pressing "Apps" or "Widgets" on top of the screen respectively.
Press "Widgets" to view all available widgets. When showing all widgets, you can swipe the screen to browse to the next page (if available).
Press and hold the desired widget to have the Home Screen show up and release the widget to any empty spot on the home screen.

To add a shortcut to any app, press the app and widget button in the top right corner of your Home Screen:

In the following screen, you can find all the installed apps and widgets, both seperately viewable by pressing "Apps" or "Widgets" on top of the screen respectively.

Press "Apps" to view all installed apps.
Press and hold the desired app to have the home screen show up and release the shortcut to any empty spot on the Home Screen.

To remove widgets and/or app shortcuts from your Home Screen, press and hold them and drag them to the appeared "Remove" dustbin icon on top of your Home Screen.

3.2 Setting a Wallpaper

To change the Home Screen wallpaper, press and hold the Home Screen until the “Select Wallpaper from” menu comes up.
You can choose from "Live Wallpapers" (animated wallpapers), "Super-HD Player" (photo/video gallery) or "Wallpapers" (default static images).

3.3 Application Menu

Press the app and widget button in the top right corner of your Home Screen:

When the system displays the widgets, press "Apps" to view all installed apps.

Here you can find all the pre-installed programs or “apps” as well as additional apps that you install.
You can launch any app by just pressing the corresponding icon.

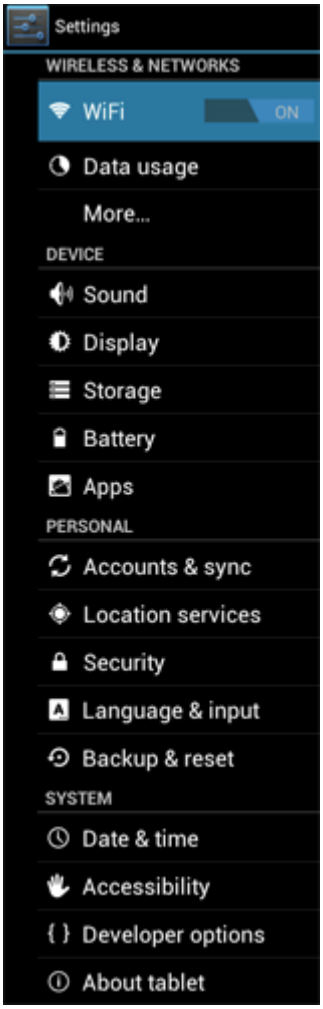
Application Screen

---

4 Setting up your Yarvik GoTab

4.1 Settings Menu

Press the Settings icon in the Application Menu to enter the Settings menu. In the Settings menu you can find the options to set up your Yarvik GoTab.



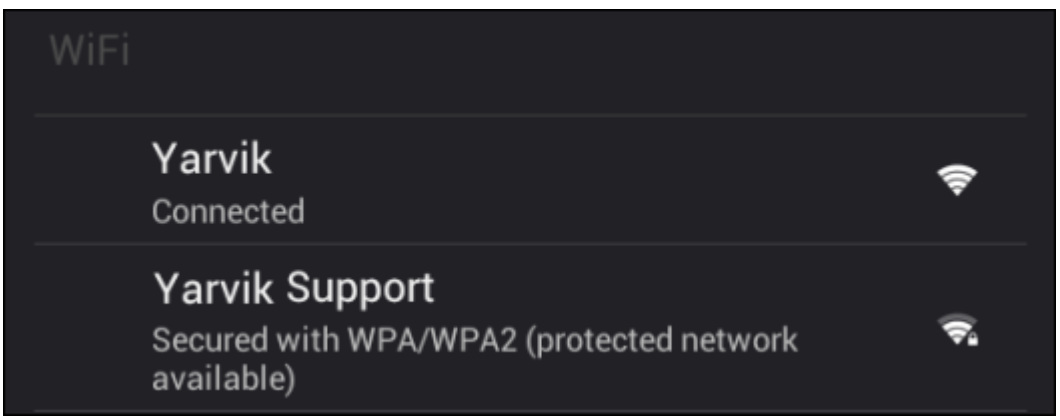
Settings Menu

We will go through the most important parts:

4.2 WiFi & Bluetooth

Wi-Fi

Set up a connection with a wireless Wi-Fi network.
Slide the On/Off button to "On" to activate Wi-Fi.

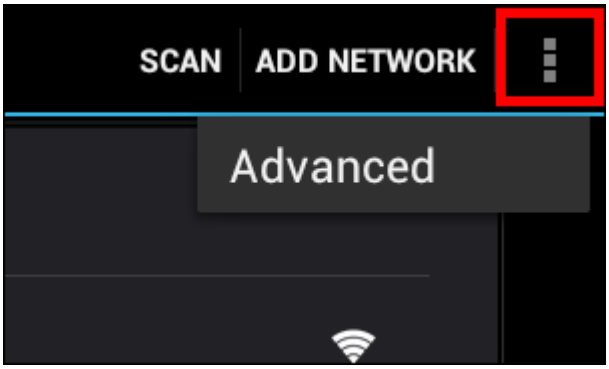


The available Wi-Fi networks appear in the network list at the right screen. Tap the network of your choice. If the network is secured, you’re prompted to enter the network security key.

Press the “Connect” button and the GoTab is connecting to the network.
Once “Connected” appears underneath the network name and the wireless reception icon is shown in the bottom status bar, you’re successfully connected to the wireless network.

Viewing your Yarvik GoTab's Wi-Fi MAC address

While in the Wi-Fi settings screen, click on the menu button in the top right corner.



Press "Advanced" in the unfolding menu.

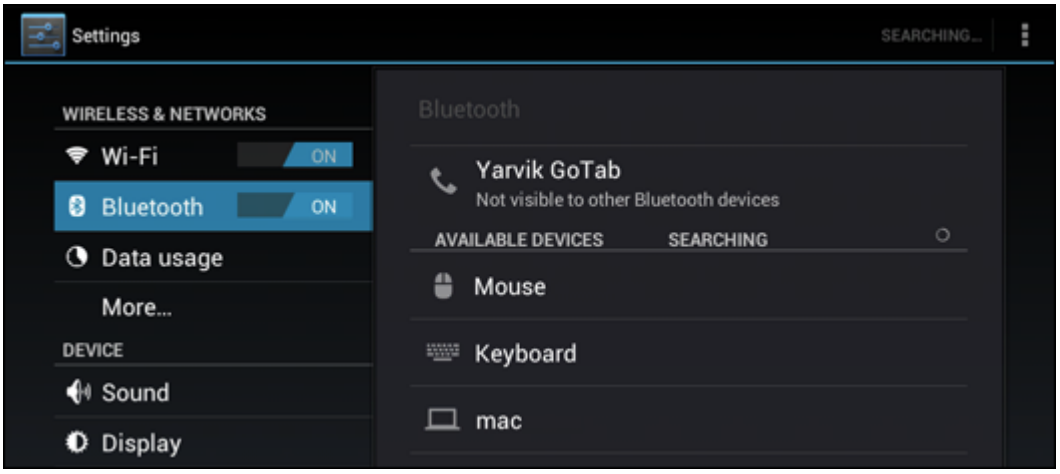
Your Wi-Fi MAC address is displayed in the following "Advanced Wi-Fi" screen under "MAC address".

Bluetooth

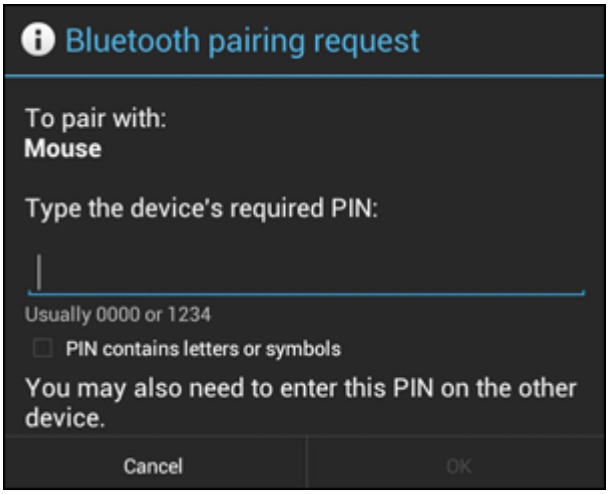
Your Yarvik GoTab tablet is equipped with a built-in Bluetooth module for connecting with Bluetooth compatible peripherals, like mice, keyboards, speakers and headphones.
Slide the Bluetooth On/Off button to "On" to activate Bluetooth.

Once activated, your Yarvik GoTab tablet will automatically start searching for nearby Bluetooth devices. You can always manually search for Bluetooth devices by clicking "Search for Devices" in the top right corner of the screen.
It may be required for the to be connected peripherals to be put in "pairing mode". Please refer to the instructions manual of the concerning peripherals for this.

All discovered devices will appear in the "Available Devices" list:

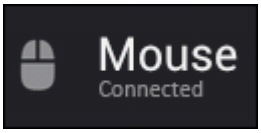


Click on the discovered Bluetooth device to pair your Yarvik GoTab tablet with it.
The "Bluetooth pairing request" window will appear:



Most Bluetooth devices require a pin code to connect. This code usually is 0000 or 1234. Please refer to the instructions manual of your Bluetooth device if the pin code is different. After you have entered the correct pin code, press "OK".

Your Yarvik GoTab tablet will now start pairing with your Bluetooth device, and after a few seconds the connection will be completed, showing a "Connected" message underneath the concerning Bluetooth device in the "Available Devices" list:



You can connect multiple Bluetooth devices to your Yarvik GoTab tablet for use at the same time (e.g. mouse and keyboard).

4.3 Sound

Here you can change the audio volume of the GoTab, otherwise possible via the volume buttons on the GoTab itself and the volume buttons in the top status bar.

4.4 Display

Here you can change the brightness of the display, font sizes and the auto sleep time.
Please note that the higher the display brightness, the higher the energy consumption. This will drain your battery substantially faster.
If you don’t want the display to auto rotate as you tilt the GoTab, you can enable/disable this functionality in the Auto-rotate screen setting.

4.5 Apps

Here you can manage applications that are installed on your Yarvik GoTab.
You can click apps that you have installed to see the app info and uninstall them if needed by using the “Uninstall” button.
Please note that the preinstalled default applications (like e.g. the calculator) cannot be uninstalled.

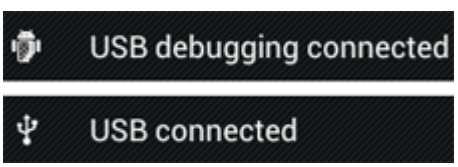
4.6 Storage & MicroSD/USB Drive Access

Shows you the internal memory information. When a MicroSD card is present, you can also find the memory information of the inserted card here.

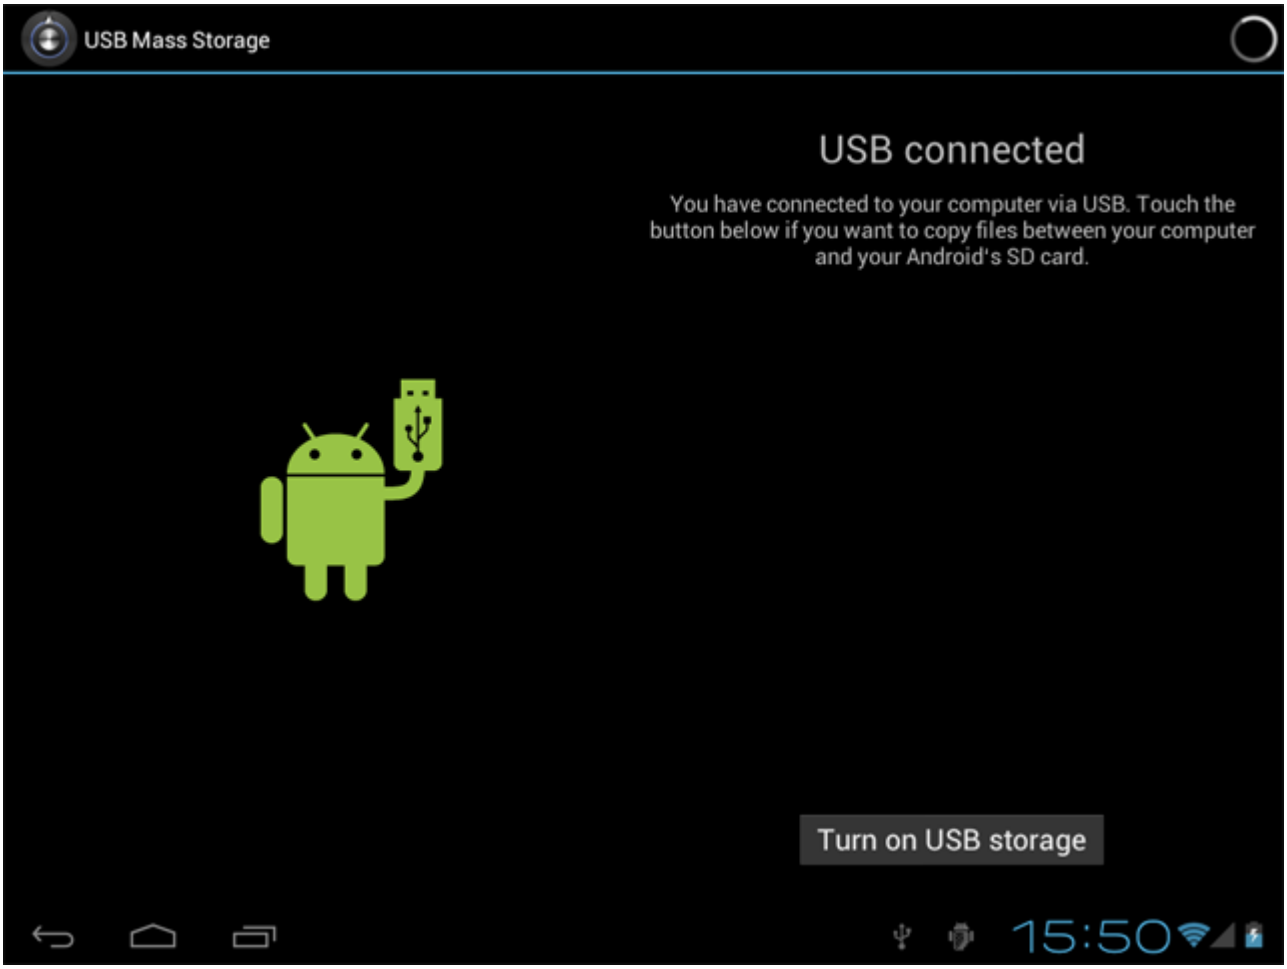
Connecting your Yarvik GoTab to a PC or Mac by USB

You can connect your Yarvik GoTab to a PC or Mac using the provided USB cable.
When connected to a computer, you can access the GoTab's internal memory and, if present, an inserted MicroSD card as standard USB Mass Storage Device.

Please refer to the printed Quick Start Guide of your Yarvik GoTab to determine the tablet's USB slave port. Connect the USB cable to the USB slave port of your Yarvik GoTab and to a free USB port on your computer.
In the bottom right of your GoTab's screen, two messages will appear shortly after each other:

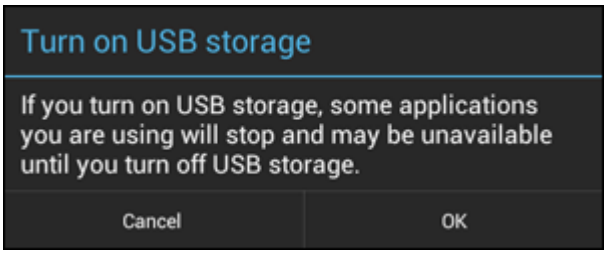


Once the second message "USB connected" appears, click on it.
The following screen will appear:



USB Mass Storage
USB connected
You have connected to your computer via USB. Touch the button below if you want to copy files between your computer and your Android's SD card.
Turn on USB storage
15:50

Click on the button "Turn on USB storage".
A notification window will appear:



Turn on USB storage
If you turn on USB storage, some applications you are using will stop and may be unavailable until you turn off USB storage.
Cancel
OK

Click on "OK" to confirm.
The internal memory of your Yarvik GoTab will now appear as Mass Storage Drive in your computer's file system, and can be used e.g. to copy files from and to your Yarvik GoTab.
If you have a MicroSD card in your tablet, the card will be recognized by the computer as a second Mass Storage Drive.

To stop using the Mass Storage Device function, click on the "Turn off USB storage" button and remove the USB cable.

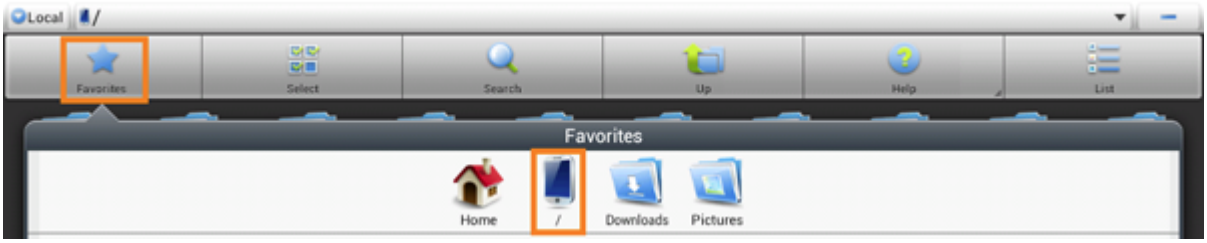
Note: There are no hardware drivers needed to access the Yarvik GoTab's memory. In the case your computer prompts for any driver installation, you can simply ignore it.

Access your MicroSD card or USB drive in ES File Explorer

If you have inserted a MicroSD card or USB drive in your Yarvik GoTab tablet, you can access its contents as following:

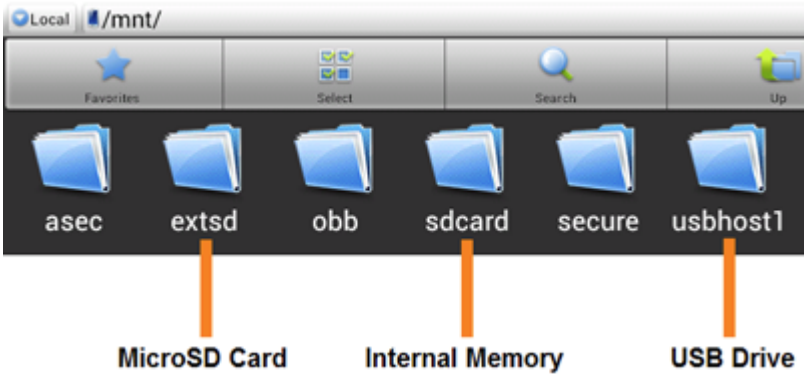
Open the **ES File Explorer** app and click on the **Favorites** button (with the blue star icon).

The **Favorites** menu now unfolds. Click on the "root" icon labeled with "**/**":



You will now reach the "root" of the tablet's file system, containing several files and folders. Locate and click on the "**mnt**" folder:

The "**mnt**" folder now opens, showing several folders:



The "**extsd**" folder is your MicroSD card (when inserted in the tablet's MicroSD slot).
The "**sdcard**" folder is the internal memory of your Yarvik GoTab tablet.
The "**usbhost1**" folder is your USB drive (when inserted in the tablet's USB host port).

You can, when available, also use the **extsd1** and **usbhost1** shortcuts in the earlier mentioned **Favorites** menu for quick access to your MicroSD card and USB drive respectively.

4.7 Language & input

Use “Select language” to select the display language of your Yarvik GoTab. This applies to all the screen texts in the entire system.
Under “Android keyboard” you may setup the onscreen keyboard of your GoTab.

4.8 Date & time

Here you can setup the date and the time for your Yarvik GoTab.

5 Apps

The Yarvik GoTab will come with pre installed Apps (see below examples).

	Browser The webbrowser for viewing web sites.		**FBReader** Ebook Reader supporting the formats: epub, fb2 and (partially) mobipocket.
	Calculator Calculator with some simple scientific features.		**Hi-Q MP3 Recorder** To record and playback voice notes/audio.
	Calendar Calendar app for making and viewing appointments.		**Manual** This Yarvik GoTab digital user manual.
	Camera For making pictures and recording video with the built-in camera.		**Music** To play music/audio files on your Yarvik GoTab.
	Clock A simple alarm clock.		**OfficeSuite** MobiSoft OfficeSuite Viewer. Opens Word, Excel, PowerPoint and PDF files.
	Downloads Shows you both current and archived downloads from the Browser application.		**Play Store** App Market to download free or paid apps for Android. Requires (free) Google account registration.
	Email Email client for sending and receiving email.		**Settings** The menu to set up your Yarvik GoTab.
	ES File Explorer File Explorer to browse/open the folders and documents on your Yarvik GoTab. Please see below for additional info.		**Super-HD Player/Gallery** The all-in-one photo viewer and video player of your Yarvik GoTab.

6 GNU/GPL Licensing Information

Please consult the legal information available on your Yarvik GoTab under Settings – About tablet – Legal information (internet connection required) or visit http://source.android.com/source/licenses.html for more information.

7 Warranty Statement

Yarvik warrants that the product purchased by Customer shall be free from defects in workmanship or materials for a period of 2 years from the date of purchase by Customer. If, at any time during the warranty period, the product has a defect in workmanship or material, Customer should return the product to the dealer where the product has been purchased. Dealer shall repair or replace it (at Yarvik's sole option) within a reasonable period of time. An original invoice is required as proof of the purchase date. Yarvik's option with respect to this matter shall be final.

This warranty does not cover defects or malfunctions resulting from software transfers, misuse, abusive operation, tampering, negligence, improper use, insufficient care or any act beyond the control of Yarvik.

IMPORTANT: When you buy a GoTab tablet from Yarvik, your tablet will be provided to you with the latest stable firmware available for this specific model, at the time the unit was manufactured. Yarvik will not provide support to products that have otherwise been modified by the end user, nor does Yarvik support programming modifications to the firmware and software used in its products, and if any such modifications have been made, all warranties shall be automatically void.

To avoid invalidating the warranty offered hereunder, Customer should use only the official software, applications and upgrades available from Yarvik's website at www.yarvik.com.
No other software or firmware should be used, as such use will automatically void all warranties and support. Yarvik does not support the use of any software or firmware other than the software or firmware that was installed on the product by the manufacturer or that is available from Yarvik's official web site at www.yarvik.com. Yarvik explicitly declines to respond to any inquiries regarding unauthorized modifications, unauthorized software, and unauthorized firmware.

8 Important Information

Wireless LAN-Regulatory information

Depending on the model, the wireless LAN built-in into tablet devices can only be used in the following countries: Austria, Belgium, Bulgaria, Czech Republic, Denmark, Finland, France,

Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Conditions of use

When using the IEEE 802.11b/g/n Wireless LAN standard, channels 1 to 13 (2.4 GHz...2.4835 GHz) are selectable for both indoor and outdoor use, however with restrictive conditions applying in France, Italy and Norway, as follows:

• France: When using this product indoor, all channels can be used without restrictions. Outdoor only channels 1 to 6 are allowed. This means that in Peer-to-Peer, the WLAN feature can only be used outside if the peer sets up the communication on an authorized channel (i.e., between 1 & 6). In infrastructure mode, please make sure the access point is configured to a channel from 1 to 6 before setting up the connection.

• Italy: Use of the RLAN network is governed: Disposal of Old Electrical & Electronic
- with respect to private use, by the Legislative Decree of 1.8.2003, no. 259 (“Code of Electronic Communications”). In particular Article 104 indicates when the prior obtainment of a general authorization is required and Art. 105 indicates when free use is permitted;
- with respect to the supply to the public of the WLAN access to telecom networks and services, by the Ministerial Decree 28.5.2003, as amended, and Art. 25 (general authorization for electronic communications networks and services) of the Code of electronic communications.

• Norway: Use of this radio equipment is not allowed in the geographical area within a radius of 20 km from the centre of Ny-Ålesund, Svalbard.

WEEE Symbol Information

Correct Disposal of This product (Waste Electrical & Electronic Equipment).

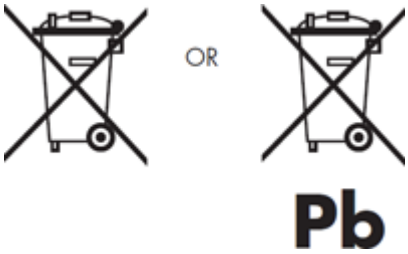
(Applicable in the European Union and other European countries with separate collection systems).

This marking shown on the product or its literature indicates that it should not be disposed with other household wasted at the end of its working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate this from other types of wastes and recycle it responsibly to promote the sustainable reuse of material resources.
Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.
Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes of disposal.

Disposal of waste batteries (applicable in the European Union and other European countries with separate collection systems)

Either of the symbols shown next may appear on the battery or on the packaging to indicate that the battery provided with this product shall not be treated as household waste. On certain batteries this symbol might be used in combination with a chemical symbol. The chemical symbols for mercury (Hg) or lead (Pb) are added if the battery contains more than 0.0005% mercury or 0.004% lead. By ensuring these batteries are disposed of correctly, you will help prevent potentially negative consequences for the environment and human health which could otherwise be caused by inappropriate waste handling of the battery. The recycling of the materials will help to conserve natural resources. In case of products that for safety, performance or data integrity reasons require a permanent connection with an incorporated battery, this battery should be replaced by qualified service staff only. To ensure that the battery will be treated properly, hand over the product at end-of-life to the applicable collection point for the recycling of electrical and electronic equipment.

For all other batteries, please view the section on how to remove the battery from the product safely. Hand the battery over to the applicable collection point for the recycling of waste batteries. For more detailed information about recycling of this product or battery, please contact your local Local government Office, your household waste disposal service or the shop where you purchased the product.



When travelling to and within the United States of America, please be aware that the U.S. Department of Transportation (DOT) recently published new regulations that apply to passengers travelling with lithium metal batteries and lithium-ion batteries.
For detailed information, visit http://safetravel.dot.gov/whats_new_batteries.html.

Safety Information

Yarvik GoTab Tablet device

• Yarvik is not responsible for any interference that you may experience or that may be caused when operating this device.

• Warning: This apparatus must be earthed.

Opening or dismantling the main unit or any of its accessories, for whatever reason, could lead to damages that are not covered by the guarantee.

• To avoid electrical shock, do not open the cabinet. Refer servicing to qualified personnel only.

• To prevent fire or shock hazard, do not expose your tablet device or any of its accessories to rain or moisture.

• Do not use or store your tablet device in a location subject to heat sources, such as radiators or air ducts; direct sunlight; excessive dust; moisture or rain; mechanical vibration or shock; strong magnets or speakers that are not magnetically shielded; excessively high and low temperatures; and high humidity.

• Turning off your tablet device with the power button does not disconnect the device completely from mains voltage. To disconnect it completely, unplug the AC adapter or the power cord from mains. The socket-outlet shall be installed near the equipment and shall be easily accessible.

• Audio and picture distortion may occur if this equipment is positioned in close proximity to any equipment emitting electromagnetic radiation.

• This apparatus is also designed for IT power system with phase to phase voltage 230V, for customers in Norway.

• Observe the following precautions to provide adequate air circulation and to ensure normal reliable operation:
- Do not use the tablet device and/or the AC adapter while covered or wrapped in cloth. Ensure the AC adapter operates in a clear environment.
- Turn off the tablet device before putting the device into a bag or a carrying case.

• Do not use your tablet device directly on your lap. The temperature of the base of the unit will rise during normal operation and over time could result in discomfort or burns.

• Do not use your tablet device while walking. Listening to music with headphones or watching the LCD screen while walking may lead to an unexpected accident and result in personal injuries.

• Using connected headphones on the tablet device for too long and/or setting the audio volume up too high when using headphones may cause serious hearing damage.

• Avoid strong beating of or to the product.

• Don’t operate the touch screen of the tablet device with sharp objects, as this may result in scratching the screen surface.

• Only use permitted batteries, chargers and accessories with your tablet device. The use of any other products with the device can be dangerous and may violate the warranty regulations.

• Only use a slightly wet cotton cloth to clean the device, and only use water to wetten the cotton cloth. The tablet device should not be cleaned with any sort of (glass) cleaning aid.

Wireless functionality

• If radio interference with other devices occurs while using your tablet device, do not use the wireless functionality. Use of the wireless functionality may cause a malfunction of the devices, resulting in an accident.

• In some situations or environments, the use of the wireless functionality might be restricted by the proprietor of the building or responsible representatives of the organization, for example on board airplanes, in hospitals or in any other environment where the risk of interference with other devices or services is perceived or identified as harmful. If you are uncertain about the policy applying to the use of wireless functionality in a specific organization or environment, you are encouraged to first ask for authorization prior to switching it on. Consult your physician or

the manufacturer of personal medical devices (pacemakers, hearing aids, etc.) regarding any restrictions on the use of wireless functionality.

• If using wireless functionality near a pacemaker, make sure it is at least 19 inches / 50 cm away from the pacemaker.

• Due to the transmission and reception properties of wireless communications, data can occasionally be lost or delayed. This can be due to the variation in radio signal strength that results from changes in the characteristics of the radio transmission path. Yarvik will not be held responsible for damages of any kind resulting from the delays or errors in data transmitted or received via wireless functionality, or failure of wireless functionality to transmit or receive such data.

• If the equipment does cause harmful interference to radio/TV reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: reorient or relocate the receiving antenna, increase the distance between the sender and the receiver, consult the dealer or an experienced radio/TV technician for help. Yarvik will not be responsible for any radio/TV interference nor for any other undesired effect.

Wireless LAN Security

Creating security settings for the Wireless LAN is extremely important. Yarvik assumes no responsibility for any security problems that may arise from the use of the Wireless LAN.

Battery pack

Do not charge the battery pack in any way other than as described in the Start guide or as designated by Yarvik in writing.

AC adapter

• It is highly recommended that you use a genuine Yarvik AC adapter supplied by Yarvik for your product.

• This AC adapter is intended for use with the tablet device IT products only.

• Do not place the AC adapter in contact with your skin. Remove the AC adapter away from your body if it becomes warm and causes discomfort.

RoHS

This products has been certified as RoHS Compliant.
